

SSR Activity Report – 2018

Student Social Responsibility (SSR) Activities form a very important part of the co-academic agenda of any institution for it re-emphasizes the relevance of service to society in the minds of students. The students of M.Com and M.Com (FA) under the Post Graduate Department of Commerce and Management, SFGC came forward with an initiative to spend a day with children in an orphanage as a part of the SSR Activity for the academic year 2017-18.

The orphanage identified was Little Lads Residency – A Blessed Home for Orphans that is being run by Elizabeth Integrated Development Charitable Trust at Horamavu in Bengaluru. The student volunteers had made a list of the needs of the orphanage and pooled in contributions from all the students of the department in order to purchase them. On 10th May 2018, all students of the department left for the orphanage with a great spirit to meet and spend quality time with the children there. The children and their guardian there were thrilled to see all the groceries, games and other items that the students had brought along for them. A few rounds of small indoor games were also organized by the students for the children with the winners being awarded with chocolates and other small prizes.

In all, the day was a one filled with contentment for all the students who affirmatively began to appreciate their own life better and also got more ambitious to help the ones in need in the society.
